

## BOARD OF PUBLIC WORKS VOTES TO IMPROVE THREE PRINCIPAL STREETS

Members Unanimously In Favor Of Paving Walnut, Chestnut and Ewing Streets and Order Specifications Prepared for Four Kinds of Material

ESTIMATED COST WILL BE ABOUT \$65,000

Largest Street Improvement Contract Ever Contemplated in Seymour And if Constructed Will Greatly Add to the Appearance Of City.

The board of public works in special session last night voted unanimously for the permanent improvement of Ewing, Chestnut and Walnut streets, the total cost of which will amount to more than \$65,000. This is the largest street improvement contract ever contemplated in Seymour and if constructed as planned the city will have several miles of improved streets. It was ordered that specifications be prepared for asphalt, concrete, brick and macadam, and as soon as these are completed, bids will be advertised for, the materials decided upon and the work begun as soon as possible. It is expected that the improvements upon the three streets can be completed before the close of the present year.

The majority of the members of the board are in favor of concrete, but all the suitable materials will be given due consideration. Especial attention has been directed towards concrete and inquiries from a number of cities having improved their streets with this material have been made regarding the advantages and wearing qualities. From all reports concrete has given the best of satisfaction, and where it has been used as an experiment it is now being used for the improvement of other streets.

Recently A. A. Davison, chairman of the board of public works, made a trip to Richmond to investigate their streets which have been improved with concrete. He reported last night that the citizens and the officials are well pleased with the results, and while some of the streets were constructed more than twelve years ago they are in good condition. Several of the streets and alleys in Richmond over which there was a large amount of heavy hauling, were paved with concrete and they show very little sign of wear.

A letter from the city engineer of Windsor, Canada, was also received, and he stated that they had a number of streets improved with concrete and that there were no objections to the wearing qualities. Information from several other cities was also received and less complaint is made of this material than any of the others. It was stated that teamsters declared that the concrete streets are not as slippery for the teams as asphalt and no more so than brick.

According to the best information as to how to construct such streets it seems that the foundation is made of cement, rock or gravel and sand. This is constructed to a depth of about five or six inches and it is then surfaced with mixture of cement and sand to the thickness of one or two inches. The concrete streets are constructed in much the same manner as are the concrete sidewalks.

The reports say that the longer the street stands the harder it becomes and in the course of several years it is almost like rock. One advantage of the concrete streets, it was stated, was that if it ever became necessary to tear a part of it up for the purpose of laying a sewer of conduits, it can be replaced without damage to the rest of the street.

While no definite estimate as to the cost of improving the streets with the various materials has been made, asphalt is the most expensive, and it is said the expense of repairs would be large. The cost of concrete, brick and macadam is about the same, although it is claimed that concrete is less expensive than brick. The city engineer of Richmond stated that the cost of the concrete streets there was \$1.32 per square yard, although this did not include the cost of drainage and excavation. It is said that the same kind of material can be used here at a less expense as gravel can be used for making the foundation while it is necessary on account of the soil to use crushed stone there. Brick it is estimated will cost about \$1.50 per square yard. City Engineer E. B. Douglass has estimated that upon the three streets there would be about twenty thousand square yards of excavation to bring the crown of the streets with the level of the curbing. If macadam is selected it will be necessary to have several inches of slope for drainage, while with concrete the top of a street thirty feet wide will only be three inches higher than the edges along the curbing. On wider streets one inch is allowed for each ten feet in width.

After considerable discussion regarding the improvement, Councilman W. R. Day moved that the three streets be improved and that Chairman Davison and City Attorney E. P. Elsner be appointed to prepare the proper specifications for the four materials. When the specifications have been printed publication for bids will be made, and when the definite estimates are received the council will consider the various materials more carefully.

As the city will be required to pay the cost of improving the intersections of the streets which, it is estimated will cost over \$15,000, there was some discussion as to how this money could be obtained. Some of the members of the board stated that between \$5,000 and \$6,000 could be saved next year in the running expenses of the city government and that this amount could be applied to the improvements. It was also intimated that the city treasury would receive additional money for liquor licenses and this could also be used for the

same purpose. If sufficient money could be received to pay for one-half of the amount which the city must pay, bonds could be issued for the balance and these could be paid off in two or three years it is thought.

Several of the members said that many of the citizens had spoken to them of the improvements, and had urged that they be of permanent nature. It is expected that there will be some opposition to the proposed improvement, but if the streets are ordered paved the work will proceed unless remonstrances are filed signed by eighty per cent. of the resident property owners. A number of the members of the board said that they were not in favor of expending any more money for gravel for the repair of the streets and were of the opinion that the improvement would be of great benefit to the property as well as to the city.

### ANOTHER "JOKER"

Many of Them are Found in New Liquor Law.

The joker for today in the Proctor saloon regulation bill is found in Section 4 of the Act. Read carefully the following:

"Provided, further, That the number of retail licenses which may be granted shall not be more than one for each five hundred inhabitants thereof, which number may be farther limited by the board of county commissioners of any county to any number not less than one of such city or township."

The men who framed the law evidently intended to say in the latter portion of the above quoted section "not more than one to each one thousand," but instead of saying more the law says less. Interpreted just as it reads the law provides that there shall be not less than one saloon for each thousand people. Just how far-reaching this is and what it really means is left for some court to determine.

### Birthday Surprise.

A very pleasant surprise party was given Thursday evening at the home of Mr. and Mrs. Henry C. Clark of Woodstock, the affair being in honor of the 14th birthday anniversary of their daughter, Miss Bertha. During the evening elegant refreshments were served. Those present were: Stella Gilbert, Tribly Reinhart, Inez Ahl, Madalene Abell, Irene Winn, Margaret Kendall, Daisy Smith, Nellie Lane, Bertha Clark, Forest Herman, Roy Kendall, Earl Smith, Travis Lucas, and Cecil Herman. The guests departed at a late hour declaring Miss Bertha a splendid hostess and wishing her many more such happy birthdays.

### The Hall Of Fame.

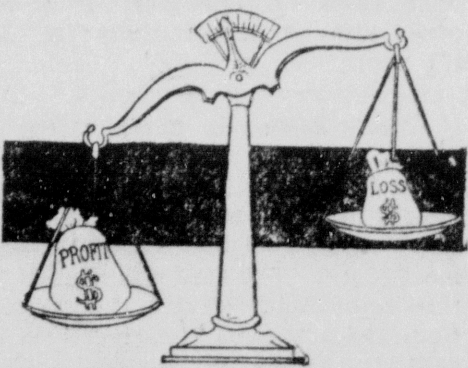

The Hall of Fame pictures and sketches which are being published each evening in the Republican are not from the Statuary Hall of Fame at Washington, D. C. as we thought when the publication began, but they are from the Hall of Fame of the New York University. The selections were made not by state legislatures where political influences frequently affected the choice, but they were selected as the men and women from all the states who are justly entitled to a place in such an institution.

## HOSPITAL CORPS ON WAY TO MEXICO

Special Train on B. & O. Transfers Company C From Washington, D. C. to The Border.

HAD COMPLETE EQUIPMENT.

Soldiers Were not Notified That They Were Expected to Leave Until Wednesday.

A special train over the B. & O. S-W, transferring Company C. of the Hospital Corps of the United States Army from Washington, D. C. to the Mexican border, passed through here this morning. There were ninety-nine men in the company in charge of Captain W. A. Wickline. The train carried the equipment which will be used in the battle field in case the soldiers are compelled to fight.

A good idea of how rapidly the soldiers of the regular army can be placed upon the fighting line is shown by this company. The soldiers were in their regular camp at Washington Wednesday when Captain Wickline received a message to prepare immediately for a trip to the border. All preparations were completed Wednesday and early Thursday morning the soldiers were on their way. They were scheduled to arrive in San Antonio, Texas Saturday morning.

The majority of the members of the company who passed through here today have not been in the service but a few months. The Hospital Corps is a training school for men whose duty it is to take care of the sick and wounded. Should there be any actual fighting it will be the first experience for practically the entire company.

This was the first move which has been seen here towards preparing for the "maneuvers" along the border, and there was quite a crowd at the station to "see the soldiers." The soldiers said they did not believe there would be much fighting, and if there were any conflicts at all they would be short, for the Mexican army is not strong, and would have little show against the strong American forces.

The companies at Ft. Benjamin Harrison at Indianapolis have also been sent to the border. Among the soldiers are several who enlisted from Jackson county, and if there is any fighting they will be in the midst of it. Henry Sutton, of this city, has written his relatives here that he is on his way to San Antonio and expected to arrive there Saturday.

### General Closing Notice Annulled.

The general closing notice pertaining to all public places such as school buildings, churches and places of public amusement will be annulled Sunday morning, March 12, 1911, provided that such places have been properly fumigated according to the directions of the Board of Public Health.

### BOARD OF HEALTH.

Per Dr. G. A. Barnes, Pres.

Dr. Knapp will make his monthly trip to Brownstown on Saturday, March 25. m24wk&f.

## Majestic Theatre

SIX NIGHTS  
Starting March 13th  
**National**  
Stock Company  
and Fay St. John  
HIGH CLASS REPERTOIRE  
AND VAUDEVILLE.

Opening Play,  
"REAPING THE HARVEST"  
Prices 10, 20, and 30 cents.

Monday Night Ladies Free.  
Every lady accompanied by a person holding a paid 30-cent ticket will be admitted FREE and entitled to best reserved seat.

Tickets on Sale at Andrews-Schwenk Drug Co.

### MINISTER ACCEPTS CALL.

Rev. George Rader Will Be Pastor of Christian Church.

Rev. George Rader, who has been pastor of the Christian church at Martinsville for several years, accepted the call of the Central Christian church of this city to become the pastor here. The Rev. Mr. Rader has preached here several times and the members of the congregation were well pleased with his sermons. While he has been in Martinsville he has enjoyed a very successful pastorate, and it was with much regret that the members of that church consented to his resignation when he decided to take up the work in Seymour.

The new pastor will begin his work here as soon as the quarantine is lifted. He will move here as soon after that time as possible. The Rev. Mr. Rader is regarded as an able minister and the congregation feels that his pastorate will be one of the greatest successes.

### Presbyterian Church.

The Presbyterian church has been thoroughly cleansed and fumigated within the last few days, and by order of the Board of Health will be open for services next Sabbath, both morning and evening. The process of cleansing has been so complete that even the great opponent of Christianity could not remain within the last twenty-four hours—and, we don't anticipate any trouble with him for the next decade to come. All come Sunday.

### First M. E. Church.

The M. E. church has been fumigated according to the directions of the Board of Health and the following services will be held Sunday:

9:15: Sunday School. 10:30: Preaching by pastor. 6:30: Epworth League led by Fred Ault. 7:30: Preaching by the pastor. Wednesday, 3:45: Junior League. Wednesday, 7:30: Prayer meeting. Friday, 7:30: Class meeting.

C. E. ASBURY, Pastor.

### Card of Thanks.

We desire to thank our friends and neighbors for their acts of kindness during the illness and death of our mother, Mrs. Catherine Davis. We thank especially the Rev. H. Knauff and Elder Harley Jackson for their words of comfort.

The Children.

### Card of Thanks.

We desire to thank all our friends and neighbors for their sympathy and many kind acts during the illness and at the death and burial of our mother, Catherine Schroer. These kind acts will always be appreciated.

THE FAMILY.

### Presbyterian Sunday School.

The Sunday School of the Presbyterian church will be conducted Sunday morning at the regular hours.

### St. Paul Church.

The regular services will be conducted at the St. Paul church Sunday.

The First National Bank of this city, whose statement of condition is published in another column today is recognized as one of the strong financial institutions of southern Indiana. Its deposits show a growth over the last statement and over what they were a year ago. It carries an especially strong reserve amounting at this time to about a third of the deposits. The statement indicates that there is an abundance of money in Jackson County.

## CLOSING NOTICE ANNULLED SUNDAY

Board of Health Decides That Churches May Hold Regular Services on March 12.

ALL BUILDINGS FUMIGATED.

Danger From Widespread Epidemic is Now Over—No New Cases This Week.

Next Sunday the sound of the church bells will be heard again after having been silenced for two weeks, the Board of Health having decided at a meeting this morning that the general closing notice which was issued in aid of the scarlet fever quarantine should be annulled Sunday morning, March 12. The action of the board in lifting the quarantine was taken only after the members were assured that the danger of the epidemic was over and that there would be no danger in permitting the public meetings to be held.

The general quarantine notice became effective Friday morning, February 24, and since that time all the churches, schools, lodges and places of public amusements have been closed. While the cases of scarlet fever were very light and only a very few of the patients seriously ill, the board decided that the most effective manner of preventing an epidemic was to close all public meetings where the children were likely to assemble. The order of the board of health has been followed strictly, which shows that the people in general approved of the method of stamping out the disease. While there were several complaints made these were expected, but the majority of the citizens have agreed with the board that it would have been serious had a wide spread epidemic started.

Before the public meetings will be permitted to assemble again, the board has issued a notice that all the rooms and buildings must be thoroughly fumigated. This has been done in practically all of the rooms this week, and there will be no danger of entering such places. The buildings were fumigated under the direction of an inspector, and the work has been done in the most effective manner. The board decided to take no chances in having the rooms poorly fumigated, and every care has been exercised.

The schools will be permitted to open again Monday morning and the electric theatres will also be ready by that time.

### FARMER DROPPED DEAD.

Henry Herkamp, of Honeytown, Stricken With Apoplexy.

Henry Herkamp, one of the leading farmers of Hamilton township, dropped dead about four o'clock Thursday afternoon in his barn lot while feeding his horses. His home was near Honeytown. He had worked all day on the farm and when he returned home began to feed his horses. He had placed two of them in the barn and was walking toward the house when he fell striking the ground on his face. His sons were near him when he was stricken but by the time they reached his side he was dead. Coroner Frank Dowden was called and held an inquest.

Mr. Herkamp was about sixty years of age, and was well known in the county. He is survived by two sons, Charles and Dietrich, both of whom live at home. He has several brothers.

### Conductor Injured.

James McGannon, a freight conductor on the B. & O. S-W, was painfully injured yesterday. He was standing on the track near some cars when they were started towards him, striking him before he could jump out of the way. He was brought to his home and it will be some time before he can return to his work. No bones were broken but his body was badly bruised.

Oliver C. Moffitt and family left this afternoon over the B. & O. S-W. for Oilfields, California, where they will make their future home. Mr. Moffitt had been employed at the Ahlbrand Carriage Co.

# Facts About Motherhood

The experience of Motherhood is a trying one to most women and marks distinctly an epoch in their lives. Not one woman in a hundred is prepared or understands how to properly care for herself. Of course nearly every woman nowadays has medical treatment at the time of child-birth, but many approach the experience with an organism unfitted for the trial of strength, and when the strain is over her system has received a shock from which it is hard to recover. Following right upon this comes the nervous strain of caring for the child, and a distinct change in the mother results.

There is nothing more charming than a happy and healthy mother of children, and indeed child-birth under right conditions need be no hazard to health or beauty. The unexplainable thing is that, with all the evidence of shattered nerves and broken health resulting from an unprepared condition, women will persist in going blindly to the trial. It isn't as though the experience came upon them unawares. They have ample time in which to prepare, but they, for the most part, trust to chance and pay the penalty.

In many homes once childless there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy, and strong.

Any woman who would like special advice in regard to this matter is cordially invited to write to Mrs. Pinkham at Lynn, Mass. Her letter will be held in strict confidence.

## THE HALL OF FAME.

ANDREW JACKSON—Celebrated general and seventh president of the United States. Born Waxhaw Settlement, N. C., March 15, 1767; died at the Hermitage, Tenn., June 8, 1845. Prisoner in the Revolution. Studied law and removed to Tennessee, where he was successively public prosecutor, member of congress, United States senator and justice of the state supreme court. Defeated the Creeks in three battles, took Pensacola from the English and repulsed Sir Edward Pakenham in a signal victory at New Orleans in 1815. Jackson was then governor of Florida and again senator from Tennessee. Defeated for president in 1824, he was elected in 1828 and again in 1832. As president he brought in the spoils system, put the United States bank out of business and quelled nullification in the south.

## Fifty Years Ago Today. March 10.

The New York Herald passed the 100,000 mark in daily circulation, "one of the effects of the great abolition war," Mr. Bennett said editorially.

## Twenty-five Years Ago Today.

The Missouri Pacific railroad notified all of its striking workmen that they had been cut off from its rolls and must leave its premises at once. Striking miners in Pennsylvania were re-enforced.

## RICHARD A. BALLINGER

Seattle Preparing to Give Him Warm Home-Coming Reception.

## BALLINGER BILLED FOR WARM WELCOME

Seattle Expresses Confidence in Retiring Secretary.

Washington, March 10.—Secretary Ballinger has received word from the president of the Rainier club, Seattle, that there will be a public reception for him upon his arrival in Seattle. A delegation of business and professional men of this city called upon Secretary Ballinger to pay his respects and bid him goodbye. They expressed the regret of the people of Washington on the departure of the secretary and testified to their high respect and regard for him. The members of the civil service commission called on the secretary also to express their regret at his leaving.

## THEN KILLED HIMSELF

After Seeking Revenge on Teacher Tennessee Boy Takes Chloroform.

Bristol, Tenn., March 10.—James Smith, a fourteen-year-old boy of Johnson City, shot and possibly fatally wounded his teacher, Professor T. C. Gray of the Johnson City public school, and committed suicide. He was found dead in a barn and is supposed to have used chloroform. He was under \$5,000 bond.

The shooting of the teacher grew out of a dispute. The latter is said to have whipped the boy with a rubber hose.

## Shot Both Husband and Wife.

Middlesboro, Ky., March 10.—General May, it is charged, shot and killed Sherman Merida and wife, in Clay county. May, it is charged, went to the Merida home to talk over some old troubles, and the fight followed. Merida's wife tried to separate the men, and she was shot and killed, as well as her husband.

## Declares His Innocence.

Bedford, Ind., March 10.—The preliminary trial of Augustino Pongeo and Thomas Meno, in jail charged with the murder of Philip Rock, the Italian banker, has been set for March 17. Meno declares his innocence and says that when the case comes before the court he will spring a surprise.

## Farmer Slain From Ambush.

Glasgow, Ky., March 10.—Wood Ayers, a wealthy farmer, was riddled with bullets while walking near Mt. Union church. The identity of the assassin is not known. Ayers recently was tried on a charge of killing his mother-in-law, Mrs. Lou Walthall, but the jury disagreed.

## VILLAGE WIPED OFF THE MAP

Powder Plant Lets Go At Pleasant Prairie, Wis.

## SHOCK FELT FOR MANY MILES

Across the Lake in Michigan and as far South as Indianapolis the Shock Following Explosion of the Laffin-Rand Powder Company's Plant Near Kenosha Was Felt—Death List Numbers Forty.

Chicago, March 10.—With terrific force the big plant of the Laffin-Rand Powder company, located near the little town of Pleasant Prairie, just across the line in Wisconsin near Kenosha and sixty miles from Chicago, "let go" last night shortly after 8 o'clock. The shock was felt for many miles around. In Chicago many large buildings in the loop district were shaken. The Boston store, one of the largest buildings in the loop, was so severely shaken that large plate glass windows in the first and second story were broken and fell on folks in the street below.

The village of Pleasant Prairie is entirely wiped out and not a building remains of a once prosperous town of 150 inhabitants, while the site of the works of the Laffin-Rand Powder company is marked only by a great hole in the ground.

Estimates of the dead place the loss of life at forty. That is the number of men actually employed in and about the works at the time of the giant blast.

The shock of the explosion was felt in towns across the lake in Michigan and as far away as Rockford, Ill., more than 100 miles from Chicago. From Indiana towns as far south as Indianapolis queries were received following the shock, asking for details of the explosion.

## VIADUCT WRECKED

Dynamiters at Work on Belt Line of Illinois Traction System.

Springfield, Ill., March 10.—The immense viaduct of the Belt line of the Illinois traction system near here was wrecked by dynamite. A second explosion an hour later wrecked the top of the works of the Capitol mine, only recently installed at a cost of \$40,000. The linemen of the McKinlock company employed on the electric line walked out when an increase in wages was refused them and the strike is held responsible for the wrecking of the bridge.

## Ready For Emergencies.

Berlin, March 10.—The German foreign office has sent the following statement to the newspapers: "The government has not yet received any news that would indicate that a dangerous condition of affairs exists in Mexico. If, however, the government receives reports showing German interests are menaced, Germany herself will certainly, without the least delay, take such measures as seem necessary for the protection of German subjects in Mexico."

## He Thought It All Out.

Indianapolis, March 10.—Mrs. Lizzie DeMar, colored, thirty-six years old, was shot and killed by Henry DeMar, her husband. In a statement made at police station DeMar asserted that he carefully thought the murder over and was glad he had shot his wife. She was preparing to leave him, he asserted, and had been untrue to him.

## Horses Burned to Death.

Denison, Tex., March 10.—A carload of horses in the troop train from Omaha, belonging to Company D, signal corps, in charge of Lieutenant McGill, to Fort Sam Houston, were burned to death near Durant, Okla., when the troop train caught fire. The fire originated from a hot box.

## Boys Admitted Theft.

Bloomington, Ind., March 10.—Orville Hostetter, aged seventeen, and Cecil Felner, sixteen, entered pleas of guilty to robbing a store at Sanders, and were bound over to circuit court.

## Brothers-in-Law in Fatal Quarrel.

Cynthiana, Ky., March 10.—Cleveland Ireland was shot by his brother-in-law, Oby Garnett, at Ireland's home in the Lee's Lick neighborhood and died a few hours later.

## WEATHER EVERYWHERE

## F. I. MADERO

Leader of the Revolt Against Long Rule of President Diaz.

## THE MARTIAL SPIRIT TAKES SUDDEN SPURT

Many Indiana Young Men Want to Enlist for the "War."

Indianapolis, March 10.—That there is a feeling of war in the air and a desire to participate in any trouble that is indicated by the sending of the United States troops to Texas, is evidenced by the number of inquiries received at the United States army recruiting station in this city.

Many young men have called in person or over the telephone at the recruiting station inquiring as to the possibility of being sent to Texas if they enlist. It is not so much that they wish merely to enlist in the army, but they want assurance that they will be sent to the "front."

Nothing has been heard at the state-house about an invitation from the government to national guard officers to go to Texas with the regular army. A number of officers have called at the office of Adjutant General McCoy, and also at the office of Brigadier General W. J. McKee, to make inquiries as to what the military display means, but they have not received any information because there was none at hand.

## WILL TALK IT OVER

Building and Loan Associations to Discuss New Law.

Indianapolis, March 10.—Gilbert H. Hendren, building and loan clerk in the office of the auditor of state, will call in a number of the building and loan men of the state for a conference in regard to the administration of the new law, which provides for examinations of the associations at least once a year, and at any other time when it is deemed advisable.

The law gives the auditor of state power to appoint three building and loan examiners for this purpose, but Auditor O'Brien has not yet made any announcement of appointments. Mr. Hendren explains that it is the purpose of the law to put the building and loan business in Indiana on a par with the banking business, as far as state supervision is concerned. There are 327 such associations in the state, with 120,000 members and assets aggregating \$36,000,000.

## Must Have New Attorney.

Springfield, Ill., March 10.—With the appointment of Walter L. Fisher as secretary of the interior it has become necessary for the senate bribery committee to secure another attorney to conduct its investigation. The appointment, it is understood, has been offered to George Gillespie of Springfield.

## Child's Horrible Death.

Joliet, Ill., March 10.—The body of Herman Labo, four-year-old son of Joseph Labo, the wealthy Joliet florist, was found in a cesspool near a greenhouse at the Labo home Wednesday by a party of searchers. It is supposed the boy accidentally fell into the pool.

## They Knew the Combination.

Indianapolis, March 10.—Thieves broke into the Kinzly hair store and stole a fine line of switches and other hair goods which will total in value at least \$3,000. The safe was opened, the thieves evidently having the combination, and \$219 was removed from the safe.

## Says He Needs a Rest.

Indianapolis, March 10.—Governor and Mrs. Marshall have gone to Hot Springs, N. C., where they will stay for a week or two. The governor said he was tired out after the strenuous work of the session of the legislature, and that he wished to rest.

## State Pays For Taft Visit.

Springfield, Ill., March 10.—The house passed a bill appropriating \$8,600 to defray expenses of entertaining President Taft at the Lincoln day celebration.

## SUNDAY SCHOOL LESSON

MARCH 12, 1911

Elisha the Prophet Restores a Child to Life. 2 Kings 4. 25-37.

GOLDEN TEXT:—The gift of God is eternal life through Jesus Christ our Lord. Rome. 6:23.

Gehazi to inquire of her if it was well with her and her husband and the child. Her reply was, "It is well," but she hurried on till she came to Elisha, and she held him by his feet, and with the very words which Elisha himself used to Elisha she clung to him until he arose and went with her (verse 30, with chapter ii, 2, 4, 6).

Gehazi preceded them and laid the staff of Elisha upon the child, but there was no effect upon the child, no response, neither voice nor hearing. When Elisha came he went in and shut the door and prayed unto the Lord and then stretched himself upon the child, mouth to mouth, eyes to eyes, hands to hands, and the flesh of the child waxed warm. After walking to and fro in the house he again stretched himself upon the child, and the child sneezed seven times and opened his eyes. The mother was called, and with gratitude that cannot be described she took up her son and went out.

The next verses describe a deliverance from death that might have taken away many, and the chapter closes with a miraculous multiplication of bread—life given, life restored, life saved, life sustained, completing nine instances thus far of the power of God seen through Elisha. Elisha was to this woman a man of God, a holy man of God (verses 9, 16, 21, 22, 25, 27); not so Gehazi. He saw something of God in Elisha. He was to her in God's stead. We are here in Christ's stead, and people should see something of Him in us (II Cor. iv. 11; v. 20). Let the woman's pressing on to Elisha remind us that we must come to God Himself through Jesus Christ alone and not through any mortal man.

Ordinances may be as useless as Elisha's staff. It is life that is needed, though there may be life associated with ordinances in the hands of some, but not through such as Gehazi.

Compare the story of Elijah bringing a boy to life in I Kings, xvii, 19-22, and note the parallels of the prophet alone with the child, the child in the prophet's bed, the prayer, stretching himself upon the child. May we earnestly covet such lives of nearness to God as these men lived and be used of Him to bring life to many dead souls. There must be the "alone with God," the believing prayer, the persistent waiting upon God, the close personal touch of life itself, not of a rod or staff, even though it be that of a prophet.

Spurgeon used to say that this stretching of oneself to a child was the hardest kind—a stretching downward to make yourself as far as possible one with the child; seeing, speaking and handling things as the child would; a putting yourself in his place.

The power of the Lord God of Elijah was first seen through Elisha in the dividing of the Jordan, the Lord doing for one man what He had just done for two, and long before for a whole nation under Joshua. It is nothing with the Lord to help with many or few. The power of the Lord is next seen in the healing of the waters of Jericho, then in the chastening of the young men who mocked Elisha, telling him to go up as Elisha had done; after that in the ditches filled with water, for the sake of Jehoshaphat, without either wind or rain.

In the beginning of our lesson chapter we see the same power multiplying the widow's oil until every empty vessel was filled, all her need supplied and something over.

Now we have in today's lesson the filling of a childless home with gladness by the gift of a no doubt longed for child and the restoration of a deeper joy by giving him back from the dead.

A great woman of Shunem felt constrained as she saw Elisha pass her house from time to time to ask him in to eat bread, and it became his habit to do this. Later she suggested to her husband that they provide him a room with a bed, a table, a stool and a candlestick, and he seems gratefully to have accepted their kindness. Then the question arose in his mind, How can I in any way recompense this loving kindness? On inquiry he found that she needed no favor from any one, but at the reminder from Gehazi that they had no children he asked the Lord for this favor for her, and, receiving the assurance that it would be so, he communicated to her the fact, which she at first received very unbelievably (verse 16), but as Elisha had assured her so it came to pass.

We think of Sarah and her unbelieving laughter, and yet in her case it came to pass, for "Is anything too hard for the Lord?" (Gen. xviii, 9-14). We look onward to Elizabeth and Zacharias and note the unbelief of the latter (Luke i, 13-20), and yet in their case it came to pass also. So we are taught to "Be not afraid, only believe" (Mark v, 36), and rely on Jer. xxxiii, 3.

It may have been that the child became too much of an idol—we do not know—but one day in the field with the reapers he complained of his head, was carried home and died on his mother's knees at noon. She laid the little body on Elisha's bed, shut the door, and without telling her husband why she made all possible speed to the man of God, who was then at Mount Carmel. Seeing her afar off, he sent his servant

**Have You Any Mantle Troubles?**

USE **INNERLIN** LINED BLOCK MANTLES AND YOUR TROUBLES ARE OVER

Block Innerlin Lined Mantles give 50 per cent. more light and will outlast six ordinary mantles. This means a saving of 75 per cent. on your mantle expense. TWO COMPLETE GAS MANTLES IN ONE. Price, 25 cents

**GET ONE TO TRY WITHOUT COST**

Save the box covers from 12 Block Vy-tal-ty Mantles—the best 10 and 15-cent grade of mantles sold—take them to your dealer, or send them to us, and get a Block Innerlin Lined Mantle free.

Block Vy-tal-ty and Block Innerlin Lined Mantles are for sale at Hardware, China, Plumbing, Grocery and Department Stores.

**LOCAL OPTION  
LAW IN FULL**

Provisions of Measure to Regu-  
late Liquor Traffic.

IT AMENDS THE LAW OF 1908

New Measure Substitutes For County  
Option The Units of Incorporated  
City, Township Not Containing an  
Incorporated City, and the Territory  
Embraced Within a Township, but  
Exclusive of an Incorporated City.

Because of the widespread interest  
in the new local option liquor measure  
which has been passed by the legisla-  
ture, this paper herewith presents the  
bill in full:

An act concerning intoxicating liquors;  
providing a method by which the  
qualified electors of townships, cer-  
tain parts of townships and cities  
may vote upon the question whether  
intoxicating liquors shall be sold as  
a beverage within such territory;  
authorizing such elections, provid-  
ing for the force and effect thereof,  
and for other matters connected  
with such subject; repealing all in-  
consistent laws and declaring an  
emergency.

Section 1. Be it enacted by the  
General Assembly of the state of In-  
diana, That whenever a petition has  
been signed and filed with the county  
auditor, as hereinafter provided, pray-  
ing the board of commissioners of any  
county for the privilege of determin-  
ing by ballot whether the sale of in-  
toxicating liquors as a beverage shall  
be prohibited within the limits of any  
incorporated city in said county, or  
in any township in said county not  
containing an incorporated city, or the  
territory embraced within any town-  
ship in said county outside of and ex-  
clusive of the territorial limits of any  
incorporated cities in such township,  
such board of commissioners, at its  
next regular session, shall order a  
special election to be held in the ter-  
ritory designated in such petition in  
not less than twenty (20) nor more  
than thirty (30) days thereafter. Such  
election shall be held at the usual  
places for holding general elections,  
and ten days' notice thereof shall be  
given in the same manner now pro-  
vided by law for notice of general  
elections.

Sec. 2. Such petition shall be ad-  
dressed to, and filed with, the board  
of commissioners of the county in  
which the territory, or greater part  
thereof, in which said election is  
sought to be held is situated. The  
form of petition shall be substan-  
tially as follows:

**PETITION FOR LOCAL OPTION  
ELECTION.**

To the Board of Commissioners of the  
County of \_\_\_\_\_

We the undersigned legal voters of  
(designate the territory for which elec-  
tion is petitioned) \_\_\_\_\_ County, state  
of Indiana, would respectfully petition  
that an election be held to determine  
whether the sale of intoxicating  
liquors as a beverage shall be prohib-  
ited in said (designating the territory  
for which said election is petitioned).  
Name..... Address.....

No person shall be entitled to sign  
such petition except he be a bona fide  
legal voter in the territory in which  
such election is sought to be held.  
The county auditor upon receipt of  
such petition, shall immediately file  
the same in his office.

Sec. 3. The petition for an election  
provided for in Section 1 of this act  
shall be deemed sufficient and the  
commissioners shall order such an  
election when the petition is signed  
by 20 per cent of the number of qual-  
ified electors of the territory for which  
such election is petitioned; and the  
number of electors in such territory  
shall be ascertained as follows:

1. If such election is to be held in  
an incorporated city, then the number  
of electors shall be deemed and taken  
to be the aggregate number of votes  
cast for all candidates for mayor at  
the last general city election in such  
city.

2. If the territory for which such  
election is petitioned is a township in  
which there is no incorporated city,  
then the number of electors shall be  
deemed to be the aggregate number of  
votes cast in said township for all  
candidates for secretary of state at the  
last preceding general election.

3. If the territory for which such  
election is petitioned is the territory  
embraced in a township outside of and  
exclusive of all incorporated cities  
therein, then the number of qualified  
electors shall be ascertained if possi-  
ble by deducting the aggregate num-  
ber of votes cast in so much of said  
cities as may be within such township  
for all candidates for mayor at the  
last preceding city election in said  
cities from the aggregate votes cast  
for all candidates for secretary of  
state in said township at the last pre-  
ceding general election.

4. If the number of qualified voters  
in such territory in a township outside  
of and exclusive of all incorporated  
cities therein, cannot be ascertained  
by the method last herein prescribed,  
then the board of commissioners of  
such county shall forthwith order a  
poll to be taken of the electors of  
such territory as of the date of the  
filing of such petition, and such poll

when taken and returned shall con-  
stitute the number of voters of such ter-  
ritory, for the purpose of such peti-  
tion; and if such petition is signed by  
qualified electors equal to or exceed-  
ing 20 per cent of such number, the  
same shall be deemed to be sufficient.  
For the purpose of taking such poll  
said board of commissioners shall ap-  
point a sufficient number of qualified  
electors of such territory to speedily  
perform such duty, which poll takers  
shall be first sworn to faithfully and  
honestly perform their duty. Such  
poll shall show the name of every  
qualified elector in such territory, and  
his place of residence. After said poll  
is returned, any person interested  
shall have the right to specifically  
challenge in writing the correctness  
of the same, which challenge shall  
summarily be heard by the commis-  
sioners. If upon such hearing it ap-  
pears that any elector has been om-  
itted from such poll, his name shall be  
added thereto, or that any person has  
been illegally polled as an elector his  
name shall be dropped therefrom. Said  
poll, when completed, shall be  
taken as the number of voters in said  
territory for the purposes of this act.  
Said poll takers shall be paid for their  
service the sum of three dollars per  
day each, and the expense of taking  
said poll shall be paid in the same  
manner as the expense of holding an  
election hereunder, and without ap-  
propriation being first made therefor.  
Preliminary to filing a petition for an  
election hereunder in the territory in  
a township where the number of vot-  
ers must be ascertained in the man-  
ner herein last provided for, the board  
of commissioners shall, upon the writ-  
ten petition of ten electors residing in  
such territory proceed to take the  
census herein provided for as of the  
date of the filing of such petition. If  
said election is ordered in such ter-  
ritory said board of commissioners shall  
have the power and it shall be its  
duty whenever necessary to fix and  
designate the voting places and pre-  
cincts in such territory, together with  
the limits and boundaries thereof. The  
word "township" as used in this act  
shall be construed to mean civil town-  
ship. After said petition is filed, no  
voter shall be permitted to sign his  
name thereto, or to withdraw his  
name therefrom. In any indictment,  
affidavit or information for selling in-  
toxicating liquors as a beverage with-  
out license in any such territory, it  
shall not be necessary to set forth the  
facts showing that the required num-  
ber of voters in such territory peti-  
tioned for the election and that the  
election was held, or that a majority  
voted in favor of prohibiting the sale  
as herein provided, but it shall be  
sufficient to allege that the act com-  
plained of was then and there pro-  
hibited and unlawful. Whenever an  
election is ordered in any territory as  
provided for in this act, the board of  
county commissioners shall not issue  
any new license to sell intoxicating  
liquors in the territory for which such  
election is ordered until such election  
is held, and then only in the event  
that such territory votes against pro-  
hibiting the sale of intoxicating  
liquors.

Sec. 4. The ballots in a special elec-  
tion held under the provisions of this  
act shall be in the following form:

(YES) Shall the sale of intoxicating  
liquors as a beverage be prohib-  
ited in (here inserting the  
particular territory in which  
such election is held).

(NO) All ballots marked with a cross in  
the square containing the word "Yes"  
shall be counted in favor of prohib-  
iting the sale of intoxicating liquors as  
a beverage in such territory, and all bal-  
lots marked with a cross in the square  
containing the word "No" shall be  
counted opposed to prohibiting such  
sales therein.

Sec. 5. The Board of Election Com-  
missioners for said election, held under  
this act, shall consist of the county  
auditor and two resident freeholders  
of the territory in which such election  
is to be held, one known to be in favor  
of prohibiting the sale of intoxicating  
liquors as a beverage in such particu-  
lar territory, and one opposed to pro-  
hibiting such sale therein, both to be  
appointed by the board of commis-  
sioners of such county at the time of  
ordering said election. Any two mem-  
bers of such commission shall have  
full power to act in all matters en-  
joined upon such commission by this  
act. Said election commissioners shall  
prepare and distribute the ballots, and  
shall, on the day after said election,  
at 10 o'clock a. m., meet at the audi-  
tor's office in the court house of said  
county and canvass the returns of said  
election and certify the result to the  
board of commissioners of said county.

Sec. 6. The board of commissioners,  
when possible, shall appoint on the  
election board of each precinct, one  
judge and one clerk known to be in  
favor of prohibiting the sale of intoxi-  
cating liquors as a beverage in the  
territory in which such election is to  
be held, and one judge and one clerk  
opposed to prohibiting such sale there-  
in; said board shall also appoint an  
inspector for each precinct.

Sec. 7. The certificate of said elec-  
tion commissioners shall be filed with  
the auditor of said county not later than  
five days after said election, and the  
board of commissioners of said county  
shall make and enter an order at the  
next regular session declaring the re-  
sult of such election. If a majority of  
the legal votes cast at said election  
shall be in favor of prohibiting the  
sale of intoxicating liquors as a bever-  
age in the territory in which said  
election was held under this act, it  
shall thereafter be unlawful for said  
commissioners or any court to grant  
a license or renewal of a license for  
the sale of intoxicating liquors in such  
territory, and the board of commis-

sioners thereafter shall have no power  
or jurisdiction to hear or consider ap-  
plications for license or renewal of  
the license in such territory until at a  
subsequent election held under this  
act a majority of the legal voters of  
such territory voting at such subse-  
quent election shall vote against pro-  
hibiting the sale of intoxicating li-  
quors as a beverage.

Sec. 8. If a majority of the legal  
votes cast at said election shall be in  
favor of prohibiting the sale of intoxi-  
cating liquors as a beverage in such  
territory, then after ninety days from  
the date of holding such election, all  
licenses and renewals of licenses for  
the sale of intoxicating liquors granted  
in said territory after the passage of  
this act shall be null and void, and  
the holder thereof shall be liable for  
any sale of liquors made by him there-  
after the same as if a license had  
never been issued to him. If the hold-  
er of such void license or renewal of  
license shall surrender the same with-  
in ninety days from the date of hold-  
ing said election, the county, town or  
city issuing said license or renewal of  
license shall refund to the holder an  
amount proportionate with the unex-  
pired time for which the license fee  
shall have been paid: Provided, how-  
ever, that no license issued prior to  
the passage of this act shall be ter-  
minated by virtue of this act or any  
vote thereunder: Provided, that a re-  
newal of a license shall, for the pur-  
pose of this act, be considered as a  
new license; and any renewal of a  
license granted after the taking effect  
of this act shall be subject to the pro-  
visions of this act, relating to the pro-  
hibition of the sale of intoxicating  
liquors as a result of any election  
held under the provisions of this act.  
Provided, further, that whenever an  
election has been held under the pro-  
visions of this act, no subsequent elec-  
tion shall be held thereunder until the  
expiration of at least two years from  
the last preceding election.

Sec. 9. If a majority of the legal  
votes cast in any territory at an elec-  
tion held under the provisions of this  
act shall be against prohibiting the  
sale of intoxicating liquors as a bever-  
age in such territory, such vote shall  
not affect, change or alter the legal  
effect of any order, judgment, or  
ordinance, remonstrance or action mak-  
ing it unlawful for the board of com-  
missioners of any city or town to grant  
a license for the sale of intoxicating  
liquors in any particular township, city,  
ward, residence district, or to any per-  
son, but such order, judgment, remon-  
strance or ordinance shall remain in  
full force and effect according to the  
provisions of the statute under which  
said remonstrance was filed or such  
ordinance enacted. And in such case  
the legal voters of any township or  
ward may remonstrate against the legal  
granting of a license to sell in-  
toxicating liquors as now provided by  
law the same as if no election had  
been held.

Sec. 10. In all elections hereunder,  
and in all matters and proceedings not  
herein otherwise specified, all the pro-  
visions, including penalties, of the gen-  
eral election laws of the state shall  
apply as far as the same are applica-  
ble. When an election is held under  
the provisions of this act in any incor-  
porated city, all expenses of such elec-  
tion shall be paid by such incorporated  
city; when an election is held under  
the provisions of this act in any town-  
ship or in the territory in any town-  
ship outside of any incorporated city  
or cities therein, all expenses of such  
election shall be paid by such town-  
ship. The auditor of the county in  
which the petition for such election  
was filed shall file with the clerk or  
controller of such incorporated city, or  
with the township trustee of such  
township, as the case may be, an item-  
ized statement of the expense of such  
election, setting forth the names of  
each person to whom the same are  
payable, and such expenses shall be  
paid out of the general fund of such  
city or township, as the case may be,  
without any specific appropriation be-  
ing made therefor. In any election  
held in any township or part thereof  
under this act, the board of commis-  
sioners may, at any time before such  
election, consolidate two voting pre-  
cincts, or fraction thereof, into one  
precinct. Any proceeding for such an  
election, begun under any law passed  
at the present session of the general  
assembly may be continued and con-  
cluded under this act, and the result  
of such election shall be effective the  
same as if held under the provisions  
of this act.

Sec. 11. Nothing contained in the  
provisions of this act shall affect,  
amend, repeal, or alter in any way  
the act entitled "An act to better regu-  
late and restrict the sale of intoxicating,  
spirituous, vinous and malt liquors,  
providing penalties for the violation  
of the same, providing for the enforce-  
ment thereof, and providing for remon-  
strance against the granting of license  
for the sale of the same, and confer-  
ring jurisdiction upon police courts  
and justices of the peace in cases of  
violation of the provisions of this act  
and other laws of the state on the sub-  
ject of selling intoxicating liquors,"  
approved March 11th, 1895, commonly  
known as "The Nicholson Law," nor  
the act to amend section nine of the  
above entitled act approved February  
15th, 1905, commonly known as "The  
Moore Remonstrance Law," nor any  
law or ordinance which prohibits  
throughout any township, ward or re-  
sidence district the sale of intoxicating  
liquors, but this act shall be deemed  
additional and supplemental thereto.  
All proceedings to secure such elec-  
tion, instituted under any law in force  
at the time of the taking effect of this  
act, and then pending, may be com-  
pleted under the law by virtue of  
which such proceedings were begun.

Nothing in this act shall in any man-  
ner affect any remonstrance which has  
already been filed, or order made  
thereon, against the granting of licenses  
to sell intoxicating liquors in any ward  
or township in this state, or against  
any particular applicant for license,  
nor shall this act in any manner af-  
fect the result of the vote of any coun-  
ty in this state obtained at any elec-  
tion held prior to January 1, 1911, pur-  
suant to the provisions of any former  
law: Provided, that the result of the  
vote of any such election in any coun-  
ty shall be effective and operative for  
the period of two years only from date  
of such election: Provided, that so  
much of any former law as authorizes  
a vote, with the county as a unit, upon  
the question whether intoxicating li-  
quors shall be sold as a beverage is  
hereby repealed.

Whereas, an emergency exists for  
this act, the same shall be in full force  
from and after its passage.

**HELD TO ANSWER BY  
MARK OF SHOE PRINT****Court Holds Indictment Against  
Gardner Is Good.**

Danville, Ill., March 9.—Judge Kim-  
brough has decided that the indict-  
ment against Fred Gardner, charging  
him with the murder of Mrs. Elsie  
Cochran, near this city last October,  
is good, and that he must stand trial.  
Gardner's attorneys demurred to the  
indictment because it did not pre-  
scribe the dead woman as a human  
being.

In October a boy going through the  
woods back of the Soldiers' home  
stumbled on the almost nude body of  
a dead woman. The body was badly  
mutilated, but was identified as that  
of Mrs. Elsie Cochran, a young mar-  
ried woman. The clew that led to the  
arrest of Fred Gardner was the pecu-  
liar formation of a shoe worn by a  
horse belonging to him. His was the  
only horse in the city shod in such  
manner. The shoes were re-  
moved from the horse and they are  
said to have fitted the tracks found  
near the body. Later it was estab-  
lished that they had been good friends  
had been riding together several  
times and had quarreled a few days  
before the crime.

**LAME DUCKS LAND**

Defeat Failed to Score a Victory in  
the Cases of These Exs.

Washington, March 9.—The "lame  
ducks" of the last congress who are  
being provided for are increasing in  
number from day to day. The latest  
to be taken care of are Senator Carter  
of Montana and Representatives  
Tawney of Minnesota and Denby of  
Michigan.

Their appointments as members of  
the international boundary commis-  
sion will, it is expected, be announced  
shortly from the White House, at \$10,-  
000 a year. The "lame ducks" who  
have already been provided for are  
Senators Flint of California and Talia-  
ferro of Florida, and Representatives  
McLachlin of California and Prince of  
Illinois, who were appointed members  
of the national monetary commission  
at \$7,500 a year; Senator Warner of  
Missouri, selected for membership on  
the board of ordnance and fortifica-  
tions; Boutell of Illinois, appointed  
minister to Portugal; Representative  
McKinlay of California, named as col-  
lector of port at "Frisco, and Durey of  
New York, appointed collector of in-  
ternal revenue in the Fourteenth New  
York district.

**WHOLE TOWN IN BAD**

Two Hundred Residents of a West Vir-  
ginia Village Arrested.

Wheeling, W. Va., March 9.—About  
200 men, women and children were  
arrested at Fortney, W. Va., when the  
federal authorities swooped down on  
the town. All are charged with manu-  
facturing moonshine whisky and will  
be held for the grand jury.

After receiving news of the large  
amount of illicit liquor being sent from  
this section the federal authorities  
raided the town and arrested practi-  
cally all of the inhabitants.

**OVERSTUDY**

Is Given as Cause of Sudden Blindness  
of Young Girl.

Carmi, Ill., March 9.—Miss Nora  
Dixon, the sixteen-year-old daughter of  
Mr. and Mrs. J. F. Dixon of Salem,  
was stricken with total blindness  
while attending school. She was sit-  
ting at a desk when she suddenly fell  
to the floor in a faint. When picked  
up her eyesight was gone. Physicians  
who examined the girl fear that it is  
a permanent affliction, and assign  
nervousness and high tension at study  
as the cause.

Charged With Bank Robbing.  
Greenfield, Ind., March 9.—The  
grand jury has indicted Dan Williams,  
charging grand larceny. Williams is  
charged with conspiracy in the rob-  
bery of the New Palestine bank.

## ENGINEER FILED REPORT ON LIGHTS

C. A. Tripp Tells Board of Public  
Works That New Light System  
Is Satisfactory.

COMMENDS THE MANAGEMENT.

Council Will Hear Later Regarding  
Accuracy of Old Meters on New  
System.

C. A. Tripp, consulting electrical engineer, who was employed by the city council to inspect the electric light system made a report to the board of public works last night that in his opinion the Seymour Public Service Company had installed equipment and was giving light and power service according to the terms of the franchise and contract. Mr. Tripp made a close inspection of the system and of the machinery in the plant and said that the company was making an effort to carry out its contract with the city. He stated that in a few minor points the provisions of the franchise had not been entirely complied with, but thought that the management intended to have these things done as soon as they could be taken up.

Mr. Tripp prepared the specifications for the new system, and when the bids were filed examined each carefully and recommended to the council that the bid of the Seymour Public Service Company be accepted. As he was well acquainted with the system, the council decided to call him here and have him make a personal investigation, and report his findings. He examined the electric light plant, and with a map of the location of the lights checked off each lamp in the city. He found that the light company had failed to place four lights as provided for in the specifications, but this was due to an oversight. One of the lamps was located on Blish street between Third and Fourth, another on Blish between Sixth and Seventh, the third on Bill street between Fifth and Sixth, and the fourth on Seventh street at the intersection of Walnut street.

Since the specifications were drawn however, the council has ordered that several of the lights be changed. Mr. Tripp recommended most of these changes, but suggested that the two lights on Blish street be placed as specified in the plans. Mr. Tripp said that he thought the city was well lighted and that the system was one of the best in southern Indiana.

Several of the councilmen inquired of Mr. Tripp if the recording meters in the business houses and residences which were used on the old system would register accurately the amount of electricity used in the system. The old system was 133-cycles while the new is 60-cycles, and several of the members stated they had been informed that the meters used in the old system would run more rapidly with the new current. Mr. Tripp said that he was not prepared to give an answer to the question as he had not examined the kind of meters which were installed here, but suggested that the names of the meters be sent to him by the council, and he would report later.

Mr. Tripp in making his report recommended the manner in which the company had attempted to carry out the provisions of the franchise and said that he believed that in a short time they would have the plant and system so as to comply in every detail with the contract. The recording ammeters at the plant had not been installed as called for in the franchise, but the manager stated that he had ordered these and they would be installed as soon as possible. Mr. Tripp reported that the company had two complete sets of machines, either of which would supply a sufficient amount of current to furnish the present demands. However, a third machine is being contemplated, and as soon as the demand for power and lights become a little heavier this will be installed.

Mr. Tripp reported that in a few places the old poles had been used, but the company had stated that these were not permanent and would be removed as soon as possible.

The members of the board of works stated that in regular council meeting they would extend Mr. Tripp a vote of thanks for the excellent services which he had given the city in connection with the new lighting system, and that they were well pleased with the manner in which they had been advised upon the various questions which confronted them.

C. W. Burkart went to Bloomfield this morning to attend a trial which is in progress there.

**SPRING** with its unfolding buds and radiant blooms, is heralded by the many new things now being shown in nearly every department of this great store. In planning for your spring outfit for home or person it will be well to keep in mind the unquestioned advantages afforded by Southern Indiana's Greatest Store. We are not content simply because we have been recognized for years as the leading store of the southern part of the state, but we are doing more than ever to enlarge our store service and increase our facilities for the quick and satisfactory handling of our steadily growing volume of business; in a word, we are not only abreast, but ahead of the ordinary standards of modern department stores.

## Early showing of spring apparel

The suit and coat section begins to take on new color as the daily arrival of new suits, coats, dresses and waists fills the racks and cases lately vacated by winter wearables. These are among the new things:

### Some of the new suits

Suits of blue serge and gray and tan mannish mixtures, also plain tailored and braided; a large collection to choose from. \$10.00 \$12.50 and \$15.00  
Gray English worsted and blue serge suits, jackets lined with beautiful peau de cygne, in Persian and oriental patterns, embroidered collar and cuffs; skirts plain enough to be practical garments, conform to fashion, but full enough to be practical garments. \$20.00 and \$25.00  
Black and white suits, coat of heavy black satin, with wide sailor collar, skirt of small checked shepard plaid, trimmed with black satin fold around the bottom.  
Misses' suits, in jaunty, spring styles, pretty gray and blue suit- \$10.00, \$12.50 and \$15.00  
Ings, sizes 14 to 18 years.

### New full length spring coats

A good representation of the newest models of full-length, semi-tailored coats for spring. Come in serges, English tweeds and light weight mannish suitings, in blue, gray and tan. A feature is the large sailor collar, in some coats of moire. \$8.98, \$10.00, \$12.50, \$15.00

### New spring dresses

Some very pretty mode's of taffeta, foulards, crepe met-  
eor, crepe de chine, marquisette, voile and wool challis. A  
dress for every occasion, very reasonably priced.

### New millinery in evidence

Here are spring hats—of net or stylish rough straw, with flower trimmings, delightfully pitched to the note of spring, some with all-flower crowns. The simple addition of one of these smart mid-season hats will freshen the half-worn winter costume.

Plenty of roses among the flower hats. On the satin hats—wings and quills and such pretty devices. Ribbons, too—it's to be a great ribbon spring in millinery.

At \$1.00 we now offer all remaining winter hats, trimmed with ribbons, flowers and feathers, values up to \$12.00, to go quickly, now at... \$1.00

## GOLD MINE DEPARTMENT STORE

### STANDARD WEIGHTS.

City or County May Appoint Sealer  
To Watch For Violations.

A definite standard of scales, weights and measures for Indiana will be the effect of the legislature passing the Spencer bill. By an amendment the bill will not be effective until January 1, 1912, because big sums have already been spent for berry boxes for the coming season which would not conform to the standard.

The state food and drug commissioner is to be the state commissioner of weights and measures. Each city or county may have a sealer to be appointed by the mayor or by commissioners, respectively, all to serve as deputy sealers under the state commissioner.

The salaries will not be less than \$1,500 or more than \$1,800. The appointees must be county or city sealers of recent experience and must pass an examination under the state commissioner.

The sealers are made special policemen and are authorized to arrest without a warrant for any violation of the statutes. The fines run between \$10 and \$100, with possible imprisonment for not more than a period of three months.

The standard will be that furnished by the federal government. The city and county standards are to be corrected by this each year.

### DON'T BE BALD.

Nearly Any one May Secure a Splendid Growth of Hair.

We have a remedy that has a record of growing hair and curing baldness in 93 out of every 100 cases, where used according to directions for a reasonable length of time. That may seem like a strong statement—it is, and we mean it to be, and no one should doubt it until they have put our claims to an actual test.

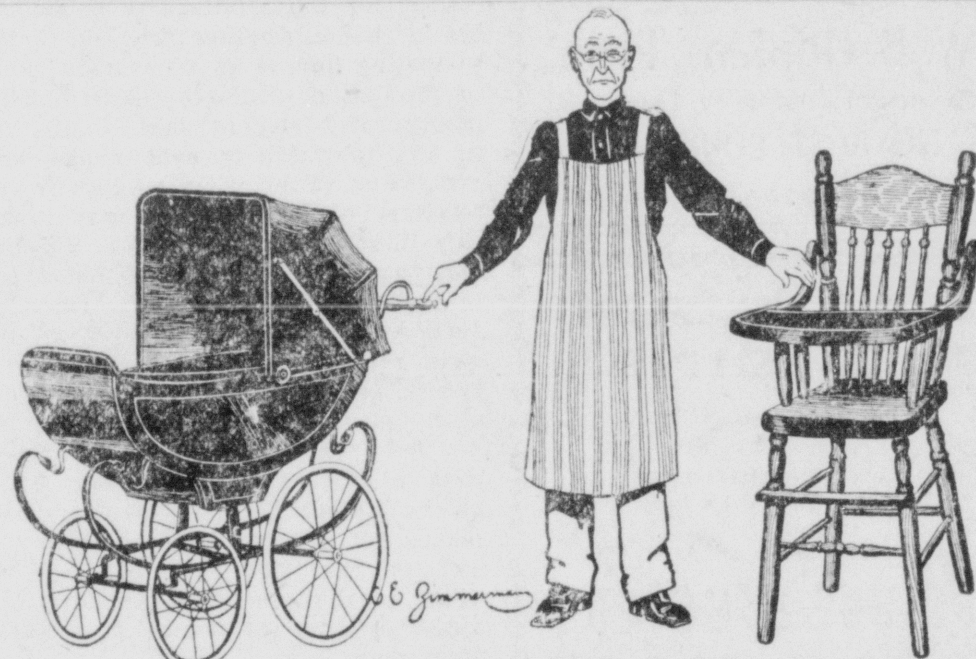

We are so certain Rexall "93" Hair Tonic will cure dandruff, prevent baldness, stimulate the scalp and hair roots, stop falling hair and grow new hair, that we personally give our positive guarantee to refund every penny paid us for it in every instance where it does not give entire satisfaction to the user.

Rexall "93" Hair Tonic is as pleasant to use as clear spring water. It is delightfully perfumed, and does not grease or gum the hair. Two sizes, 50c, and \$1. With our guarantee back of it, you certainly take no risk. Sold only at our store—The Rexall Store. The Andrews-Schwenk Drug Co.

The Railroad Commission of Indiana yesterday mailed circular letters to all railroad and interurban companies directing the installation of stop signals at grade crossings where interlocking systems are not in use. The commission directs the companies to place red lights about five feet above the ground, for use as stop signals for engineers.

Merrill Montgomery, who is attending Hanover College, is here to spend Sunday with his parents, Judge and Mrs. O. H. Montgomery.

Albert Tellman, who has been in Pittsburg recently is spending a few days at home, having been called here by the death of his aunt, Miss Minnie Brand.

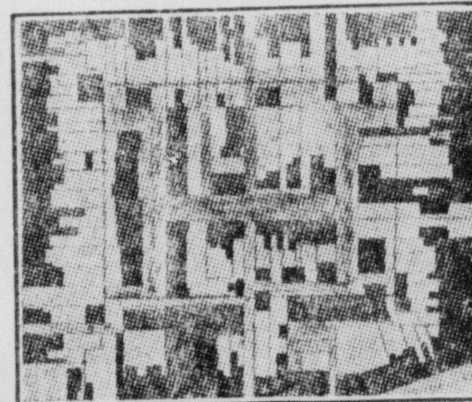

**TO CONVERT OBJECTIONABLE PLACE INTO PLAYGROUND**

Washington Seeking Aid of Congress in Obliterating Willow Tree Alley.

The District of Columbia commissioners, with the co-operation of the Washington chapter of the American Institute of Architects, will endeavor to obtain from congress an appropriation of \$125,000 to convert Willow Tree alley and surroundings into a playground.

Willow Tree alley is a section of southwest Washington which the District government, as well as the several civic and patriotic societies, supported by thousands of individuals, has endeavored to have removed for years. Buildings of a cheap type line both sides of the narrow passageway. The alley is considered the worst of its kind in the District.

The illustration shows the plan of the proposed improvement. The section of the square which the national

PLAYGROUND WITHIN BLACK LINES, ALLEY IN CENTER.

capital would have converted into a playground for the southwest is included within the dotted lines.

The capital of the nation is usually looked to for suggestions by other municipalities.

Progressive cities and towns throughout the country can well hold the nation's capital as a model which they can follow. The converting of this objectionable section of an otherwise beautiful place will be studied thoughtfully by enterprising municipalities and perhaps even copied by many.

If you really want to help your town, get rid of the ugly spots.

The mail order houses earn millions each year. Isn't it time to give your neighbor a chance?

We do "Printing That Pleases"

## MEN WHO SEE THESE New Spring Clothes

are sure to want to buy. Never have you seen more handsome styles. They are different yet dignified, plain but rich, conservative but distinctive. They are sure to please you when you see them and they are so tailored that when you have worn them, your opinion of them will be strengthened still more.

**Confirmation Suits are here.**

**YOU MAY NOT WANT TO BUY NOW BUT YOU CERTAINLY SHOULD SEE THEM NOW.**

**Adolph Steinwedel Clothing Co.**

### Seymour Temperatures.

The following are the maximum and minimum temperatures as shown by the government thermometers at the Seymour volunteer weather observation station and reported by J. Robt. Blair, observer. The figures are for twenty-four hours ending at noon:

## DRINK KILLS INDIAN MESSIAH

George Moses, Noted Leader of Nez Perces.

Drinking copiously of liniments and a concoction of alcohol and cocaine, used by the Indians as a hair restorer, proved the undoing of George Moses, friend of the early white settlers in eastern Washington and Oregon and northern Idaho and foremost in the councils of the Nez Perce tribe.

Moses, who a few days before had proclaimed himself a Messiah, died a raving maniac in his home on Tom Beall creek, six miles from the Indian

CHIEF GEORGE MOSES AND SQUAW.

agency at Lapwai, Ida., on Feb. 12. He was roped and strapped to his bed when the end came.

Several days before his death Moses, while posing as "king of kings," summoned the Indians to his throne and pronounced judgment on each, decreeing that some should be blessed and others consigned to purgatory.

Moses was looked upon as second to Chief Joseph, declared to be the ablest man the Nez Perce tribe has produced. He was identified with the Lapwai faction which refused to join Chief Joseph in the hostilities against the whites in 1877-8, when the reds led General O. O. Howard such a lively chase in the northwest.

## Spiked Girdles For Men.

Indiana, home of poetry and literature, is on record as giving to man still another benefit. The recent invention is a protection for men against the long and sharp hatpins of the opposite sex. The inventor, who calls his discovery the "spiked girdle," is Frank Browne, a farm hand of Owensville. The girdle consists of a leather band to which are attached

ed numerous steel points resembling the abhorred hatpins. The girdle slips around a man's hat and affords an almost impenetrable defense in large crowds. The invention of the invention was furnished during a recent trip to St. Louis, when Browne was wounded in one ear by a hatpin under feminine propulsion.

## WHY NOT A SPORTING COINAGE

English Wag Suggests Improvements on Georgian Issue.

The many criticisms launched against the new Georgian coinage of Great Britain have taken another turn through a novel though waggish suggestion. The innovation proposed is a sporting coinage in view of the British tendencies.

The promoter of the sporting legal tender calls attention to the many

SUGGESTIONS FOR SPORTING COINAGE

fields of artistic endeavor opened by such a change with the possibilities of high art in reproducing groups of individual models from the football and athletic field, bowling alley, race track, boxing ring, wrestling mat or skating rink.

He promises the government a strong support from the British public if his suggestion is followed.

## Washington Is Becoming Favorite City of Wealth

WASHINGTON expects soon to be acknowledged as the richest capital of any nation in the world. The rich, it admits, are so far largely represented by the dollar mark, but culture has never been a stranger to the District of Columbia, and all that the word implies is rapidly appearing in the city beside the Potomac.

The great reputation of the American capital for hospitality, the acknowledged blue bloodness of its resident society and the municipal improvements of recent years have done much to wean from their homes the millionaires of the commercial centers

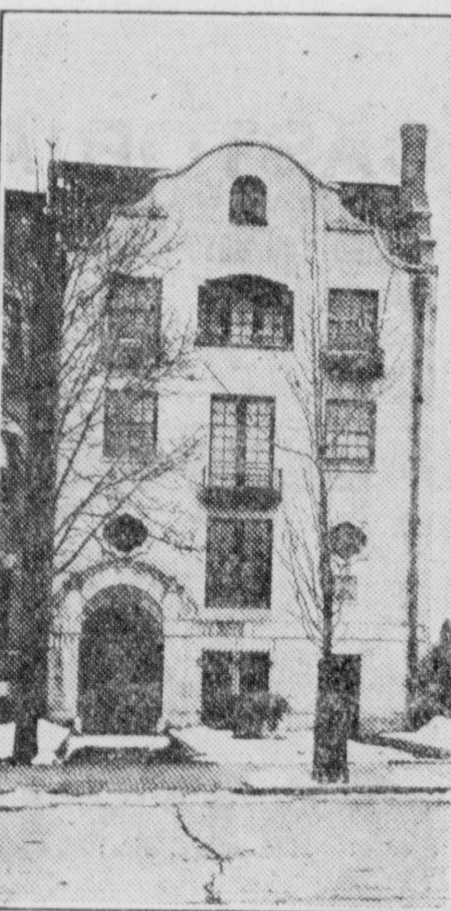

HOME OF MRS. THOMAS F. WALSH.

of the nation. New York, Chicago, Boston, Cincinnati and other big cities have lost some of their shining lights, and Washington has gained them. Many sought Washington through pure weariness of the rush and roar of social life in these cities, yet they are transferring that very type of living to the erstwhile center of quiet elegance.

This financial invasion is only about five years old, and the pioneers in the movement were Thomas F. Walsh, the Colorado mining millionaire; John R. McLean, owner of one of Cincinnati's wealthiest newspaper properties and other interests; Mrs. Levi Z. Leiter, widow of the former partner of Marshall Field and possessor of millions invested in Chicago realty and Illinois coal lands; and Mrs. A. C. Barney, widow of a Cincinnati banker and daughter of the pioneer theatrical man and distiller of that Ohio city.

This hierarchy has been strengthened by the wedding of Miss Evelyn Walsh to Edward Beale McLean, and their son, Master Vinson Walsh McLean, popularly known as the "Million Dollar Baby," is expected to wield the

RESIDENCE OF MRS. A. C. BARNEY

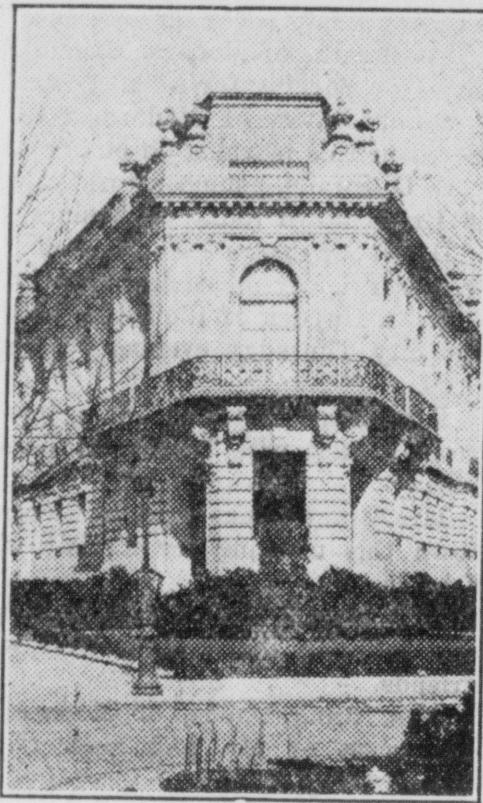

hereditary scepter of the "Wealthy Pioneers of Washington" in times to come.

Mrs. Walsh maintains the title of Washington's wealthiest widow, but is pressed closely by Mrs. Leiter. Both have magnificent homes which are among the show places of the capital, but the Chicago candidate has three daughters—Mary, Daisy and Julia—famed the world over for their beauty and their noble husbands, and also for the fact that their marriages were happy ones. Mrs. Leiter, reputed to be a great matchmaker, proved it in her own family.

Mrs. Barney was not only one of the millionaire pioneers, but also the builder of the beautiful residential section now known as Sheridan circle. Her friends marveled that she should wander from the sacred precincts of Dupont circle when they heard of her building plans, but the "fairy godmother" of Washington only smiled and went ahead with the construction of "Studio House," her Italian palace.

Mrs. Barney, who is more than sixty years of age, soon will marry a young Washingtonian, Christian Hemmick, aged twenty-six, is the latest news.

The New York millionaire invaders are headed by the Edson Bradleys and the Perry Belmonts, each family residing in mansions of great cost. A noticeable feature of the Bradley home is a reception room which is a representation of a Roman atrium, the fur-

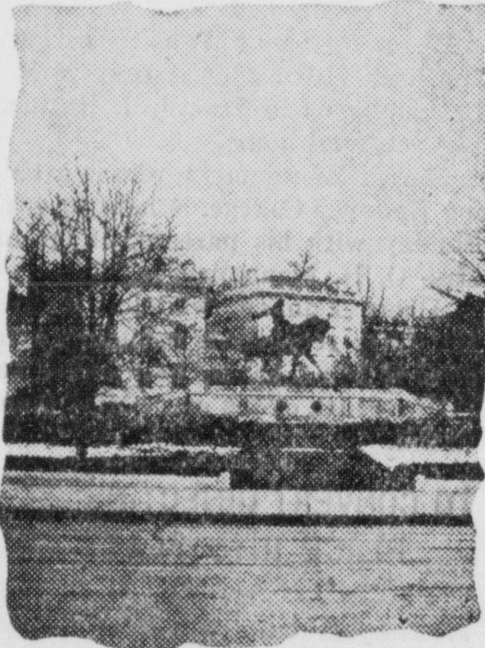

1911, by American Press Association.

## WHERE PERRY BELMONT RESIDES.

nishings being collected abroad at great cost. Back of the atrium is the music room, which is a complete museum of musical instruments, including an electric pipe organ. Here great divas and world famous musicians give entertainments that are notable.

When Perry Belmont appeared as a permanent Washingtonian there was a near social feud. Some of the social inner circle, among them Thomas Nelson Page, decreed that the New Yorker should not be admitted and kept him out of the Chevy Chase club and

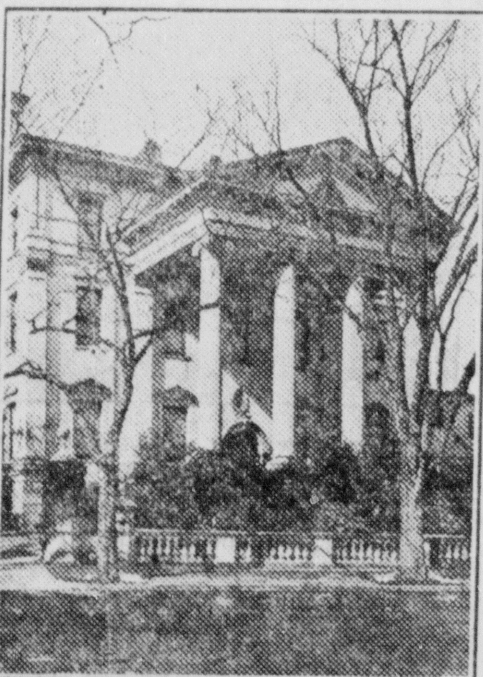

1911, by American Press Association.

## A GLIMPSE OF SHERIDAN CIRCLE.

other fashionable organizations. Just for revenge the former congressman bought the land in front of the Page home and erected a million dollar mansion, the servants' entrance of which faces the Page abode. This Belmont home, incidentally, is known as the "upside down" house, for the cooking is done at the top of the building, and there are three stories underground.

There have been notable entertainments given by this colony, such as the Walsh dinner, when gold and jewel favors were given the guests and live song birds flew freely about the room, and the Edson Bradley ball, with its American Beauty rose trees and fountains, but the Belmont musicale is also famous. It was noted artistically, and it broke the social barriers. Such operatic artists as Caruso and

MRS. L. Z. LEITER'S COLONIAL HOUSE.

Cavalleri were produced, and the demand for invitations smashed the feud to splinters.

Other well known families who have pitched their tents around Sheridan and Dupont circles include Mrs. George M. Pullman and Mrs. Marshall Field of Chicago, George F. Westinghouse of Pittsburgh and the Robert Roosevelts, Duryeas, George W. Vanderbilt and Oliver Cromwell of New York. It is said Mrs. Potter Palmer of Chicago, who spends much of her time in England, will soon build a Washington home, and so it goes.

## SPRING HOTBEDS.

Simple Suggestions For Starting Things Growing at Home.

To have or not to have a hotbed must be decided on rather early in the season. March or early April should see a large one "on tap." The elaborate ones are expensive and require almost constant attention. If left to themselves they freeze by night and broil by day, and that great is the gain thereof perhaps does not greatly matter to one who gardens only in a small way. But that is a question one must decide for oneself, says the Country Gentleman.

If the one is a woman and the bed can be placed only a few steps outside the sunny window where she spends the greater part of her days sewing, reading or planning dainty dishes against the homecoming of the man the effort may be worth while. It means to uncover in the early morning before the sun reaches the bed, to shade at noon, to let in air later, to replace the glass as the sun declines, to know how and when to water and while the nights continue cold to cover at dusk with matting or even thick carpets. If you do not want to confront this trouble and the expense try a few shallow boxes covered with panes of glass in the house.

The windows of the kitchen are by all odds the best, as the air is properly dense and moist. If you have had little experience, which we are supposing you have not, do not try asters and fine flower seeds in this way—only common, easily grown seeds. The others would almost certainly "damp off," die or come up so slim and sickly that they would never amount to anything.

Or, infinitely better than the house boxes, if you possess or can easily come by an everyday window sash—even one 3 by 3 feet will do—this can be fitted on to a rough box from the grocer's and the whole set on a heap of manure where the sun will reach it early and late. With this a few radishes, lettuce and fine flower seeds can be successfully grown. Never put it in a northern exposure and do not have less than full three inches of sifted earth on top of the manure. More is better. Do not try the small bed very early. Wait until April forgets to be coy with winter; then with moderate care the small structure should make a difference of several weeks toward getting things into bearing of leaf or blossom.

## BOTTLED TIME.

Bottled time is a choice dish to serve at planting, haying and harvest season. Now is the time to preserve it. Gather it in idle days by putting everything in perfect order for the work later on—New England Homestead.

## THIN OUT YOUR FRUIT.

Desirability of the Practice Illustrated by Superabundant Plum Yield.

The illustration, reproduced from the Long Island Agronomist, shows a branch cut from a botan (Japanese) plum tree in full bearing. It was printed to show the heavy yield and one reason why fruit should be thinned.

Fruit growing in such abundance is sure to deteriorate. Proper thinning

BRANCH OF PLUM TREE.

before the product is permitted to develop is followed by fruit of superior size and quality, commanding higher prices if marketed or affording greater table delight if consumed at home. This is a point neglected too frequently by farmers and fruit growers who complain of yields that are too abundant and of inferior quality.

Don't joy ride in your automobile when you ought to be moving the manure in your barnyard out into the hungry fields.

## Stimulating an Old Tree.

An old tree that is injured needs very much to be stimulated. You can do this by cutting back well and fertilizing and cultivating it. You should give it a dressing of wood ashes and ground bone or acid phosphate, with some barnyard manure added. If possible loosen the soil around it early in the spring and if the weather is dry water it occasionally.

Mulching Berry and Flower Beds. In mulching strawberry beds, flower beds or trees and shrubs be careful to select a material for the mulch that will not "pack."

## BALTIMORE & OHIO SOUTHWESTERN R.R.

Commencing March the 10th or way tickets will be sold at greatly reduced rates to points in Arizona, British Columbia, California, Colorado, Idaho, Mexico, New Texas, Utah, Oregon and Washington. O sale daily to and including April 10th.

## ALSO

Home Seekers Round Trip Tickets on sale 1st and 3rd Tuesdays of each month to points south and southwest west and southwest.

WE DO PRINTING THAT PLEASES.

## RHEUMATISM PAINFUL & DANGEROUS

Rheumatism is due to a diseased condition of the blood cells and corpuscles, brought about by an excess of uric acid in the circulation. It is not only a very painful disease but an extremely dangerous trouble. The briny, acrid state of the blood gradually forms a coating over the muscles, and by depositing a cement-like substance in the joints frequently terminates fatally, or leaves its victim a hopeless cripple. It is natural to "doctor" the spot that hurts, and it is quite right to use liniments, hot applications, etc., to get temporary relief from a painful joint or swollen tendon; but Rheumatism is not a skin disease, and such things, when depended on alone make one careless, and the disease gets a firmer hold on the blood. S. S. S. cures the disease because it is the greatest of all blood purifiers. It goes into the circulation, and removes every particle of the irritating uric acid, builds up the blood, makes it rich and oily, and in this way prepares it for the

proper nourishment of all joints, muscles, nerves and bones. If you have Rheumatism, get the uric acid out of the blood by taking S. S. S., a purely vegetable medicine, and enjoy freedom from its misery. Book on Rheumatism and any medical advice free to all who write.

THE SWIFT SPECIFIC CO., Atlanta, Ga.

### The Durands and Meyers.

In France the name employed to designate one of a very large number of men, as Smith is sometimes figuratively used with us, is Durand, the commonest name in the French directories. In Berlin and other cities of north Germany "Herr Meyer" is the equivalent of "Mr. Smith." In other parts of Germany the name of Schulz or Schulze is the most common. German police authorities, who keep a sharp eye on everybody, have much trouble to distinguish all the Schulzes who have the same given name. One Schulze, who received a public office in Berlin, was inscribed on the police rolls as "Hermann Schulze LV." On the same roll there were a Lehmann XIX, and a Neumann XIV.—Harper's.

### No Need to Stop Work.

When your doctor orders you to stop work, it staggers you. "I can't," you say. You know you are weak, run down, and failing in health, day by day, but you must work as long as you can stand. What you need is Electric Bitters to give tone, strength and vigor to your system, to prevent breakdown and build you up. Don't be weak, sickly or ailing when Electric Bitters will benefit you from the first dose. Thousands bless them for their glorious health and strength. Try them. Every bottle is guaranteed to satisfy. Only 50c. at the Andrews-Schwenk Drug Co.

Advertise in the Republican. It pays.

### A Product of Peru.

One day in the course of study the teacher had occasion to give a description of the republic of Peru. After describing its natural features, people, commerce, industries, products, etc., he gave his class a test to find how much they remembered of what he had told them. Having received satisfactory replies to a number of his questions, he asked, "Now, who can tell me what the principal products of Peru are?" Instantly there came from somewhere in the rear of the room the answer "Prunes."—Philadelphia Record.

## Backache Means Dying Kidneys

**A Remarkable Treatment That Saves the Kidneys. How You May Cure Yourself Quickly and Thoroughly.**

With the progress of science comes one remarkable treatment for kidney diseases. It has been so thoroughly tested and its results have proven so revolutionary that a well-known firm in Michigan has undertaken its distribution into every part of the country. Those who suffer from kidney trouble and the diseases resulting from it will be pleased to know that every package of this treatment is thoroughly guaranteed. This should assure at last a positive cure to every sufferer. Every man and woman should know that backache is usually a well-defined symptom of advancing kidney disease which may end fatally unless treated in time; that rheumatism and bladder trouble are caused from nothing more nor less than kidneys that do not filter the poison from the blood; that dropsy, Bright's disease, diabetes and bladder stones are caused by bad kidneys. Once they are made to work properly, these diseases should quickly disappear.

This is done by the new treatment, Dr. Derby's Kidney Pills. We urge everyone who has pain in the small of the back, or pain, or scanty urination, pain in the bladder, cloudy or foul urine, not to fail to get a package today of Dr. Derby's Kidney Pills, and drop all other kidney treatments. Senator Stevenson, of Washington, writes from Olympia: "There is no question about the efficacy of Dr. Derby's Pure Kidney Pills in curing kidney and bladder trouble. I know whereof I speak." Dr. Derby's Kidney Pills are now sold at all drug stores—60 pills—10 days' treatment—25 cents, or direct from Derby Medicine Co., Eaton Rapids, Mich. If you would like to try them first, ask your druggist for a free sample package. Then buy a package; and you will not regret it.

## MADERO FORCES BLOODY BATTLE

**Two Hundred Killed and Wounded At Casas Grandes.**

### AMERICANS AMONG NUMBER

Of These Thirty-Six Were Captured and at Least Four Slain—American Recruits of Madero's Insurrector Force Refuse to Run When Federals Gain the Best of the Battle, and Are Taken.

El Paso, Tex., March 10.—In his first clash with federals Francisco Madero was badly defeated and lost some of his best men, who were Americans. The federals lost heavily, also. The battle was fought at old Casas Grandes, 225 miles south of here, and the insurrectos were routed in the battle but continued on the march toward Chihuahua. It is reported, but not yet confirmed, that the rebels soon rallied and returned, completely defeated the federals and captured the town of Casas Grandes. The fighting was between the command of Samuel G. Cuellar, aide de camp of the staff of President Diaz, and the insurrecto command of Madero.

Thirty-six of the Americans in Madero's command are known to have been captured, and among the dead four Americans were seen in one pile. They were in the front ranks of the insurrectos. The insurrectos lost 200 killed and wounded. They also lost 200 horses and twelve wagons loaded with provisions and ammunition.

Some field guns captured by Madero's advance guard when it entrapped Colonel Escudero's federal force on the Santa Maria river a week ago, were captured from the rebels, who did not have sufficient ammunition to operate them, while the federals had plenty of ammunition and a field gun, with which they shelled the rebels. The battle lasted about eleven hours. By a flank movement of federal cavalry the insurrecto prisoners were taken. Most of the prisoners were Americans who refused to run.

### DISPOSING FORCES

General Duncan Laying Out the Camp at Fort Sam Houston.

Fort Sam Houston, Tex., March 10.—It is planned by General Duncan, commander of the department of

Texas, to have the camp of the division well established before the arrival here of Major General W. H. Carter, who will be in command of the mobilized forces.

The division will be divided into three infantry brigades, a cavalry brigade and an artillery brigade. The three infantry brigades will be commanded by Brigadier Generals R. W. Hoyt, L. P. Mars and F. A. Smith. So far no provision has been made for the command of the cavalry and artillery brigades. It may be that they will be commanded by colonels. The ground for the camp comprises over 800 acres. The entire field will be utilized for camp purposes.

### An Afterthought.

Washington, March 10.—The trifling importance attached by army officers to the maneuver phase of the mobilization was illustrated at the war department when inquiry was made as to who were to be umpires in the war game. Apparently the question of selecting umpires had been overlooked. The war department authorities seemed somewhat embarrassed and said that this question would be taken up immediately and that umpires would be named.

### Mysterious Kentucky Tragedy.

Bowling Green, Ky., March 10.—Eugene Neal, aged thirty years, superintendent of the farm of Sherman Whitlock at Massey's Mill, this county, was assassinated. Arising from the supper table, Mr. Neal walked to the front yard, and in a few moments a pistol shot rang out. Mr. Whitlock ran to the scene and found his superintendent dead, shot through the brain.

### The Germans Are Agitated.

Berlin, March 10.—The Pan-German press is considerably agitated over the late developments in the Mexican situation. It accuses the government of the United States of taking advantage of the difficulties in Mexico to repeat "the piratical exploits exemplified in the treatment of Texas."

### New Danger Menaces.

Austin, Tex., March 10.—The state health department has been advised by its inspectors in Mexico that yellow fever has made its appearance in that country. A stringent quarantine will be established by the state against the infected places.

## GEN. LEONARD WOOD

Chief of Staff is to Take Charge of "Maneuvers."

## CHIHUAHUA'S CAPITAL IN IMMINENT DANGER

**Rebels Closing In On Capital of Northern State.**

Torreon, Mexico, March 10.—With the object of converging with a force of several hundred rebels that is advancing toward Chihuahua from Sahuarich, Pascual Orozco's force of rebels, numbering about 500 men, has been making a detour to the west, Chihuahua advises say. This new movement is believed to be the part of the general plan of making a concerted attack upon Chihuahua within the next few days. The military authorities of that city are strengthening the fortifications in anticipation of the attack. It is thought that the railroad can be kept open between here and Chihuahua by the detachments of federal troops that have been stationed along the line when the repairs that are now being made to the destroyed bridges are finished.

The smelters of the American Smelting and Refining company at Chihuahua and Velardena are running short of ore and may have to be closed down. Many of the larger mines in the states of Chihuahua and Durango are closed on account of the tying up of transportation facilities.

### A BROKER'S DEVICE

That Is What Ambassador Wilson Characterizes Diaz Death Rumor.

New York, March 10.—"You can put it down for a practical certainty that the report of the death of President Diaz is false," said Henry L. Wilson, United States ambassador to Mexico, when he was told of the rumor about the Mexican president. He said the report was intended to influence the stock market.

Mr. Wilson has left New York for Crawfordsville, Ind., where his mother is ill.

### Italian Cruiser at Mazatlan.

Mazatlan, Mexico, March 10.—The Italian cruiser Etruria, commanded by Senor Fazalle, has arrived in this port and is attracting a great deal of attention in view of the present situation.

### Factory Destroyed by Fire.

South Bend, Ind., March 10.—Fire of unknown origin destroyed the factory of the R. Z. Snell company, manufacturers of cement machinery, entailing a loss of \$5,000.

### TERSE TELEGRAMS

President Taft will make an address tonight before the Southern Commercial congress being held at Atlanta.

Various interpretations of the new Indian liquor laws are causing no end of confusion in many counties of the state.

The British naval estimates for the year include a sum sufficient to provide for the building of five new dreadnoughts.

Colonel Roosevelt has arranged his trip to San Antonio so as to include a visit to the maneuvers at Fort Sam Houston.

Foreign Affairs Secretary Enrique C. Creel, dispatching from Mexico City, says: "The health of President Diaz is excellent."

The residence of Albert Caldwell at Memphis was entered by thieves while the family was at supper and \$40,000 worth of diamonds taken.

The war department has arranged with the Wright brothers and Glenn H. Curtiss to prepare for immediate shipment three additional aeroplanes for the army now mobilizing in Texas.

William Merry, United States minister to Costa Rica, has arrived at New Orleans from Port Limon, en route to Hot Springs, Ark., where he will take a long rest.

Of the twelve copper mining companies in Michigan which it is proposed to merge into a new Calumet and Hecla company, but two have now formally expressed a desire for the consolidation.

### CURED TO STAY CURED.

How a Seymour Citizen Found Complete Freedom from Kidney Troubles.

If you suffer from backache—From urinary disorders—From any disease of the kidneys—Be cured to stay cured. Doan's Kidney Pills make lasting cures.

Seymour people testify: Mrs. Lydia Owens, 425 Jackson St., Seymour, Ind., says: "Several years ago I had pains in the small of my back and was also subject to headaches. My kidneys were badly disordered and I attributed my trouble to the failure of these organs to do their work properly. When I learned of Doan's Kidney Pills, I immediately procured a supply and their use corrected my trouble. I know of other people who have taken Doan's Kidney Pills and praise them as highly as I do." (Statement given in 1906).

### NO TROUBLE SINCE.

On April 14, 1910, Mrs. Owens was interviewed and she said: "During the years that have passed since Doan's Kidney Pills cured me, I have been entirely free from kidney trouble. I am constantly recommending this remedy."

For sale by all dealers. Price fifty cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

### Advertised Letters.

The following is a list of letters remaining in the post office at Seymour, Indiana and if not called for within 14 days will be sent to dead letter office.

Mr. Al. Sherwood.

EDWARD A. REMY, P. M.

### Forced to Leave Home.

Every year a large number of poor sufferers, whose lungs are sore and racked with coughs, are urged to go to another climate. But this is costly and not always sure. There's a better way. Let Dr. King's New Discovery cure you at home. "It cured me of lung trouble," writes W. N. Nelson, of Calamine, Ark., "when all else failed and I gained 47 pounds in weight. Its surely the king of all cough and lung cures." Thousands owe their lives and health to it. It's positively guaranteed for Coughs, Colds, Lagrippe, Asthma, Croup—all Throat and Lung troubles. 50c, and \$1. Trial bottle free at the Andrews-Schwenk Drug Co.

### Nervous Headache.

A well known medical authority once said: Sleep, if taken at the right moment, will prevent an attack of nervous headache. If the subjects of such headaches will watch the symptoms of its coming they can notice that it begins with a feeling of weariness or heaviness. This is the time a sleep of an hour, or even two, as nature guides, will eventually prevent the headache. If not taken just then it will be too late, for after the attack is fairly under way it is impossible to get sleep until far into the night."

### Not a Word of Scandal

marred the call of a neighbor on Mrs. W. P. Spangh, of Manville, Wyoming, who said: "She told me Dr. King's New Life Pills had cured her of obstinate kidney trouble and made her feel like a new woman." Easy, but sure remedy for stomach, liver and kidney troubles. Only 25c. at the Andrews-Schwenk Drug Co.

### An Australian Mole.

The Australian mole burrows obliquely in the sand, going two or three inches under it and never betraying its passage except by a slight undulation of the soil. In digging it uses its conical nose, which is protected by a horny plate, and the strong, mattock shaped claws of its fore feet. The hind feet, which are wider and spade shaped, throw the sand back, so that no trace is left of the tunnel which it follows. It comes to the surface a few yards farther on and then buries itself again, all without making any noise.

### A Dreadful Sight

to H. J. Barnum, of Freeville, N. Y., was the fever sore that had plagued his life for years in spite of many remedies he tried. At last he used Bucklen's Arnica Salve and wrote: "It has entirely healed with scarcely a scar left." Heals Burns, Boils, Eczema, Cuts, Bruises, Swellings, Corns and Piles like magic. Only 25c. at the Andrews-Schwenk Drug Co.

## WASHINGTON IS AT LAST FRANK

**Admits Object of Unprecedented Army "Maneuvers."**

### AN OBJECT LESSON TO MEXICO

Vell That Has Been Thrown About Big Military and Naval Demonstration Is at Last Lifted and There Is No Longer Any Doubt as to Why All the Available Federal Troops Have Been Rushed South.

Washington, March 10.—There is no longer doubt as to why practically all the available federal troops now in the country have been rushed to Texas and lower California. The vell that has been thrown by officials high and low about the joint "maneuvers" of the army and navy along the Mexican border and in the Gulf of Mexico has been put aside.

First of all the government feared the formation of an insurrection government in Lower California. With the formation of such a government the United States would be compelled to keep continual watch on the whole southern frontier.

Secondly it was feared that American property in Mexico, valued at hundreds of millions, might be swept away, and it was desired to protect as well the interests of foreigners who, keeping in mind the Monroe doctrine, might look naturally to the United States for such protection.

Third, it was determined to stop friends of the Mexican insurrectos from carrying supplies that were contraband of war across the Rio Grande from Texas. Last of all it was believed that "maneuvers" in Texas at this time would show the "Jingoes" in congress and elsewhere that the army could be mobilized in case of difficulty in remarkably quick time.

### No Backing Out Now.

The army is going to Texas and it is going to stay there until there is reason to believe that serious trouble in Mexico is no longer probable. It will patrol the border line with a fine-tooth comb and if necessary it will step in to prevent anarchy and revolution that would endanger lives and property of Americans and foreigners. The step was taken advisedly and no retreat is contemplated.

Opinions differ in Washington as to the likelihood of developments on the Mexican frontier which may require intervention on the part of the United States. Obviously the government authorities believe that the situation is too serious to warrant the taking of any further chances. There is good reason to doubt that this government itself has any detailed accurate conclusion of the conditions in Mexico. Henry Lane Wilson the ambassador to Mexico made a gloomy report of conditions when he was in Washington early in the week, but he was obliged to acknowledge that he himself could not tell the exact status of the rebellion.

Conflicting reports from credible sources are given out on the condition of President Diaz's health. The Mexican embassy declares upon the strength of official reports that the aged executive is in good physical and mental condition. On the other hand, statements from sources in Washington, sources which are accurate, say that President Diaz's health is fast declining and that his grip of affairs has slipped away with the advancing years. United States officials deny that they have received any alarming information as to his health, although there is good reason to believe that possible contingencies regarding his death were among the subjects discussed by Ambassador Wilson in his recent conferences with the Washington officials.

### To Patrol Border Line.

The events of the last two days make it absolutely certain now that no single development was responsible for the sudden decision on the part of the president and his advisers to hurry 20,000 troops to the Mexican frontier. The mobilization is the outcome of many circumstances, all of which led to the conclusion that it would be the part of wisdom to have a force in readiness on the Mexican frontier for use in emergency. The consideration of greatest importance was the protection of American and other foreign interests in Mexico. The United States has something like \$1,500,000,000 invested in Mexico and there are between 60,000 and 70,000 Americans living in that country.

The scout cruiser Chester has been ordered from Pensacola to Tampico, Mexico. The navy department gives no explanation of the sending of the war vessel to the eastern coast of Mexico, but this latest development fits in with the impressive military demonstration that is being made for the protection of American and other foreign properties in Mexico.

### Workmen Caught in Crash.

New York, March 10.—Four men who were laying concrete flooring in an apartment house in course of construction were killed when a panel of concrete on the eighth floor of the building collapsed and carried down the panel underneath it on each of the other floors. The four men were buried underneath the mass of concrete, steel and timber.

## WALTER L. FISHER

Chicago Lawyer Named as Secretary of the Interior.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from ten drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. Cheney & Co. Toledo, Ohio.

Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

### Notice of Final Settlement of Estate.

Notice is hereby given to the creditors, heirs and legatees, of Hardin Hancock Deceased, to appear in the Jackson Circuit Court, held at Brownstown, Indiana, on the 24th day of March, 1911, and show cause, if any, why the Final Settlement Accounts with the estate of said decedent should not be approved; and said heirs are notified to then and there make proof of heirship, and receive their distributive shares.

WITNESS the Clerk of said Court, this 1st day of March, 1911.

JOHN R. TINDER,

Clerk of Jackson Circuit Court.

## SPECIAL SESSION OF CITY COUNCIL

Will Be Held Monday Night at Which  
Time the Amount of License  
Fee Will Be Fixed.

THIRTY DAYS IS TIME LIMIT.

Majority Of Members Are in Favor of  
\$500, and it is Expected This  
Amount Will Carry.

The question of fixing the fee for licenses for the sale of intoxicating liquors in this city will be determined at a special meeting of the council Monday evening. The Proctor law provides that the city council must pass an ordinance fixing such fees within thirty days after the bill became a law. If the members of the council can agree unanimously upon the fee, the rules can be suspended and the ordinance passed at one meeting. If the members cannot all agree upon the license it will be necessary to have it read at three separate meetings.

The majority of the council seem to be in favor of the maximum fee of \$500, and it is not believed that it will be necessary to call more than one meeting to pass the ordinance. No official action has been taken regarding the amount of the fee, but the members have discussed the question among themselves and have practically agreed upon the largest amount.

If fifteen applications are granted, which is the maximum number, the revenue received provided the fee is fixed at \$500 would amount to \$7,500 each year. It is believed that if the city is "wet" there will be at least fifteen applicants for liquor licenses. In many of the other surrounding cities of this class the city councils have already fixed the license fees at \$500.

Several of the leaders of the temperance forces are urging that an election be held before the expiration of the two year period for which the county was voted "dry" under the county option law, and declare that they are of the opinion that the sentiment against the open saloon is increasing and that the city would vote "dry." They also argue that the restrictive measure was not satisfactory to many who were in favor of the open saloon and that even men who voted "wet" in the previous election would vote "dry" now. Others declare that it would be useless to call an election and are opposed to the move.

It is understood that if the saloons are permitted to operate here, there is a movement on foot to see that they obey the law strictly. They are not permitted to sell liquor on any legal holiday nor between the hours of midnight and 5 o'clock a. m. There are also a few restrictions regarding the condition of the room in which the liquor is sold, and it is the intention to see that these are obeyed.

Ed Petterman is spending several days with relatives at Cincinnati. His quarantine for scarlet fever was raised several days ago.

For Sale at the Old "L. F. Miller Stand"

## MORE SUMMER IS PROMISED.

Weather Bureau's Forecast Predicts  
Another Warm Day.

Unless unexpected changes occur, today's weather will be a repetition of yesterday and summer heat or thereabouts will be the rule, according to the forecast last night by the local Weather Bureau. The maximum temperature yesterday was 67 degrees, recorded at 2:30 o'clock in the afternoon. With one exception, the day was the warmest of the year. The minimum temperature was 33 degrees, at 7 o'clock in the morning. The rising temperature had been predicted, but 34 degrees was more of a jump than was anticipated. The mean temperature of 45 degrees was 8 degrees above normal for March. The rise in temperature was general in the central states. A low pressure area hung over Indiana, bringing no rain, although a shower threatened in the afternoon.

## The National Stock Co.

The National Stock Company comes to Seymour highly recommended. Miss St. John, who heads the company is a very clever little actress and never fails to win the applause of the audience. While here the company will

plays as "Divorced," "Maud Muller," "The Man Outside," "My Lady Nell," "The Man in the Overalls," "She Dared Do Right" and "The Duke's Daughter."

The prices are 10, 20, and 30 cents, and the seats are on sale at Andrews-Schwenk Drug Company. The play Monday night is "Reaping the Harvest."

A number of local fishermen went to the river this morning with their fishing outfit. The river is yet a little muddy for first class fishing, but on warm spring days it is hard for many of the fishermen to remain
